

I am an avid listener of FM translator service stations that could be impacted by LPFM. In particular, stations like K-LOVE provide a tremendous positive influence on its listeners. I am a contributor to K-LOVE and greatly appreciate its positive, loving message.

The loss of K-LOVE in my local community due to LPFM would be disappointing. K-LOVE provides our local community with an encouraging and uplifting message which is a great balance to the many lurid and socially antagonist stations that exist today.

Thank you for considering my comments.
